

## Federal Reserve Resources for Program Assessment

### Investment Connection

Investment Connection is a platform for community-based organizations to generate interest in their programs and connect with potential funders. Organizations can submit a short, easy to complete online proposal which is reviewed and shared with bankers and other funders.

### Map Your Community

Map Your Community is a web-based mapping tool that allows users to create custom maps of their communities, counties and states using key economic and demographic indicators. These indicators include educational attainment, demographic trends, various types of lending activity and homeownership rates. These custom maps can help support community assessments and program planning.

### Oklahoma Economic Databook

The Kansas City Fed's monthly economic databooks provide summaries of regional and national economic indicators for the Tenth Federal Reserve District states including Oklahoma. The databooks provide current economic indicators such as income, employment, home prices, housing vacancy and housing permits to help monitor trends and allow comparison of past information.

### Tenth District LMI Economic Conditions

This biannual report provides a comprehensive assessment of economic conditions in the District's low- and moderate-income communities which can provide useful context for program assessment, planning and evaluation.

### CRA OneSource

CRA OneSource is your one-stop-shop for resources related to the Community Reinvestment Act, including guides and publications, mapping and search tools, community development and regulator resources and CRA webinars. This resource can help community organizations understand the role and interests of banks in supporting economic development activities and engage them as partners.
